

# Fluke DTX Care – Breakfast Update

Mayflex is hosting a Fluke DTX Care, breakfast update on **Wednesday 7th October at the Dakota Hotel, Glasgow** and on **Wednesday 11th November at Excel House, Birmingham.**

Join us for tea, coffee and bacon rolls, whilst finding out about the latest updates from Fluke Networks on their DTX product.

The aim of the day is to assist DTX owners in getting the maximum possible from their DTX CableAnalyzer investment.

Those customers who attend the morning can benefit from the following:

- Your DTX will be cleaned
- A performance verification is carried out to test your unit is operating correctly
- Test results can be downloaded
- Examples of the latest options, enhancements and accessories will be available for review and can be seen working during the morning.

Technical specialists will also be on hand to discuss any setup issues and answer all queries regarding operation and maintenance of the DTX CableAnalyzer.

## Quotes from previous attendees:

“ I found the DTX morning to be a pleasant surprise. There was a lot of very useful technical and product specific information offered which gave an insight into functionality in the DTX we had not been previously aware of and other Fluke products which would support the DTX to further assist us in future jobs. On top of this our tester was cleaned and calibrated for us free of charge. All in all an incredibly useful day!”

**Michael Joseph**  
TSI Installations

“ I found the morning to be very informative & beneficial, not only with respect to my DTX-1800 but also the range of Fluke products available for inspection. It was reassuring to have my DTX inspected & tested by the guys and know that it has a ‘clean bill of health’.

**Andrew Ness**  
Suna Communication

**The breakfast update is free of charge.**

**To book a place please complete and send back the fax back form overleaf**
