

Mayflex Enviro-Box Delivery Service

At Mayflex we have a reputation for being one of the most trusted, reliable and forward-thinking distributors in the market today. We take our environmental responsibilities seriously and are continually reviewing how we can reduce any negative environmental impact that our business activities create.

To help us meet these objectives we have introduced a new delivery service that offers a more eco-friendly way of receiving your goods from Mayflex.

The **Enviro-Box** is a re-useable, secure box that safely delivers your products, eliminating the need for individual product and outer packaging that needs to be disposed of.

Features and Benefits of the Service

- Reduces the amount of packaging for disposal
- Saves time for your engineer, with a reduced number of boxes delivered to site - on average 75% less packaging
- On average the Enviro-Box can hold 2000 outlets
- Easily moved around site – each case is fitted with pulley handles and castors
- Fits through a regular sized door (33" wide)
- Outer case provides a strong, flexible container which absorbs external impacts far better than standard packaging
- A simple, straightforward returns procedure

How to order the Enviro-Box Service

Contact our sales team, place your order in the usual way and ask for the **Enviro-Box** delivery service option, 48 hours notice is required when using the **Enviro-Box** service.

Our team will do the rest. You will simply receive your goods in an **Enviro-Box** opposed to the conventional Mayflex packaging.
