

Manage airflow

Provides labelling surface

Covers unused space

Features

- Enhances Cabinet Appearance
- Manages Airflow
- Covers Unused Space
- Various Sizes
- Brush Strip Version
- Letterbox Version

Product Overview

A range plates that allow the unused space to be covered. The covering of the rack mount space within a cabinet may be desired for a range of reasons from covering unused space to managing airflow. The Excel Plates are available in different sizes. Letterbox style and brush strip versions are available where a method of allowing patch leads to be managed to the back of the cabinet are required.

System Warranty

When installed with Excel Patch Panels and Data Outlets by an accredited Excel Cabling Partner, this product is supported by a comprehensive 25 year product and applications warranty.
