& Singlemode fibre options

100m Multimode & 1000m
Singlemode standard lengths, other
lengths on request

ST, SC, FC/PC & LC connectors as
standard, other connector types on
request

Continuous fibre length - No Splices

Sturdy waterproof case
235mm x 111mm x 192mm

Fibreco Launch Leads are used to provide a near end buffer to eliminate the effect of OTDR launch dead zone, allowing accurate measurements to be made at the front end of the system under test.

These high quality launch leads are manufactured with a continuous fibre length for maximum measurement accuracy. There are no pigtail splices within the unit.

Connector options include ST, SC, FC/PC & LC types as standard, any other connector type can be supplied on request.

The launch leads are fitted within a heavy duty IP68 case and are provided with 2m tails.
